

CLOUD SOLUTION

Improved performance, reliability & security to the Cloud

Concerned about your business's Internet reliability, security and performance?

DQE Communications now provides private and direct connectivity to top-tier Cloud Service Providers.

DQE provides dedicated, private networking connectivity between your office location(s) and data centers to your Cloud Service Provider. DQE will partner with Cloud Service Providers such as Amazon Web Services and Microsoft Azure/ Office 365*.

Your business will benefit from fast, seamless and secure data performance to the Cloud with the most flexible and scalable bandwidth options to meet any of your business demands.

DQE's cloud connections are secure by design and partners with Cloud Service Providers to offer numerous business benefits:

- Private, secure connections
- Bypasses the public Internet
- Improved performance and more consistent customer/ user experiences
- Reduces risk of exposure to DDoS attacks
- Increases computing capabilities through lower latency
- No additional hardware required
- No colocation required
- 24/7/365 local NOC
